

Corona Virus Statement

YOM is still open for business!

We here at YOM are following the procedures and recommendations put in place by the government. However none of these procedures are new to us. Here are standards we implement before the virus and will continue to do as long as we are open:

- Wash and sanitizer buckets at each work station. These are changed regularly.
- Clorox sanitizer wipes at all stations.
- At our register we provide guests and employees with hand sanitizer.
- Employees are required to wear gloves when handling all foods and beverages.
- All fruits and vegetables are triple washed in a dedicated vegetable and fruit sink.

New measures we have implemented in regards to the Corona Virus:

- Temperatures are taken of each employee daily
- If an employee exhibits signs of congestion (even if allergies) they are asked to stay home
- Employees are required to wash hands after greeting guests at the register.

It is our intent to be here during these trying times. We will be exploring delivery options to assist those staying at home. Please feel free to email me with any concerns you may have at info@yom-maste.com

Thank you,
Rob Green
